

THE CITY OF WATERLOO

The City of Waterloo is dedicated to one-on-one, personalized service that provides developers with a dependable source and vested partner. This strongly supports the City's reputation as a dynamic, leading edge community that is the fifth fastest growing region in Canada (*Source: 2001 Census*).

In order to ensure the open and consistent communication that is key to any project's success, the City facilitates discussions and meetings with legal department representatives, planners, developers, Region staff, environmental consultants and the federal government where necessary.

The City of Waterloo evaluates projects on a case-by-case basis and applies a fine-tuned, reasonable and solid development process with information from both the province and Ministry of Environment.

For more information on brownfield opportunities within the City of Waterloo please contact:

Rob Trotter, Development Planner
