Available funds are equitably distributed to all eligible applicants according to a formula. The formula is based on the number of visitors or audience members from at least 40 km away attending your organization’s eligible activities (exhibits, performances, programs or events)\(^3\).

1. Each organization’s total annual tourists is divided by the sum of total annual tourists for all eligible applicants.

---

\(^3\) Ministry of Tourism, Culture and Sport defines “tourist trip” an “out-of-town” trip 40 km one-way from the traveller’s home.
2. That number is then multiplied by this funding opportunity’s budget to determine each applicant’s eligible funding allocation.

3. Incentive allocations are capped at a maximum of three per cent of an organization’s annual operating budget.

Region of Waterloo staff evaluate applications according to the program eligibility criteria and prepare recommendations to the Region of Waterloo Council for approval.

Funding is not assured for any application. All decisions are final.

For organizations that have previously received ongoing operating funding from the Region: The calculated eligible incentive amount changes from their previous amount, this will be phased in over a period of three years. The first year they will receive their most recent funding amount, the following year they will receive a reduction or increase of 50 per cent of the difference, and in the final year will receive their calculated eligible incentive amount.
