Did the staff report symptoms and was told “Do Not Go to School” on the Ontario COVID-19 School Screening tool? [https://covid-19.ontario.ca/school-screening/]

Has the staff had an exposure* in the last 14 days?

- Yes: Advise symptomatic staff to self-isolate and go for testing. All household members need to self-isolate while awaiting the test result of the symptomatic staff. If the symptomatic individual refuses testing, the individual should self-isolate for 10 days from symptom onset or 14 days from their last exposure, whichever is longest. Household and school close contacts would be required to self-isolate for 10 days from symptom onset or 14 days from their last exposure, whichever is longest.

- No: Staff can go to school.

Has the staff had an exposure* in the last 14 days?

- Yes: Advise to self-isolate for 14 days from their last exposure*. Household members should self-monitor.

- No: Staff can go to school.

Visit an assessment centre for testing

- Positive: Public Health will provide guidance regarding return to school and self-isolation and testing of household contacts.

- Negative: If the Provincial school screening tool indicates the staff requires testing, proceed to next box below.

A doctor has diagnosed the staff with another illness

- Yes: Advise the symptomatic staff to self-isolate and go for testing. The staff may return to school if all the following apply:
  - Do not have a fever (without using medication)
  - Symptoms have been improving for at least 24 hours
  - Do not have an exposure requiring them to continue to self-isolate.* If the staff has an exposure, despite the negative test result, the staff must self-isolate for 14 days from the exposure.

- No: Staff must self-isolate for 10 days from symptom onset. Staff can return to school after 10 days of isolation if all the following apply:
  - Do not have a fever (without using medication)
  - Symptoms have been improving for at least 24 hours
  - Household contacts should self-monitor.

Household members should self-monitor.

*Exposures requiring individuals to continue to self-isolate for 14 days include:
- Close contact with a COVID-19 case
- Travel outside of Canada within 14 days prior to symptom onset
- Been told by a doctor, health care provider, or public health unit to self-isolate

This document will be reviewed and updated as changes are announced by the Ministry.
