Weekly Stakeholder Bulletin #3

Novel Coronavirus

Date issued: February 24, 2020

Purpose of bulletin: The purpose of this bulletin is to keep local stakeholders informed of the evolving international novel coronavirus situation and its implications for Waterloo Region.

What's New

- At this time there are no confirmed cases of 2019 Novel Coronavirus (COVID-19) in Waterloo Region.
- Updated information sheets about Coronavirus for the general public are available in multiple languages at: ontario.ca/coronavirus

Current COVID-19 situation

- The COVID-19 situation continues to evolve internationally.
- Canada and other countries continue to focus on containment strategies to decrease the spread of COVID-19, including early identification of symptoms, testing, and in select situations, isolating people at higher risk of having or developing coronavirus infection.

Returning Travellers

- Returning travellers from Hubei province, China (including Wuhan) are asked to self-isolate for a total of 14 days from the date they left Hubei. In Waterloo Region, returning travellers from Hubei province are advised to call Region of Waterloo Public Health at **519-575-4400 within 24 hours of their return to Canada.**
- Travellers to mainland China, other than Hubei province, are asked to watch for signs and symptoms which may develop up to 14 days after departure from China. They are asked to avoid large crowds and places where it would be difficult to self-isolate if symptoms occur.
 - If they experience symptoms within 14 days, they are asked to follow-up with a health care provider and Region of Waterloo Public Health at 519-575-4400. If possible, they should call ahead before going to a medical office or an emergency department to allow health care staff to manage

their case appropriately. They should avoid contact with others (e.g. stay home from school, work or child care; avoid group activities, public places or taking public transit; and refrain from having visitors).

Prevent the spread of germs and viruses

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.

Avoid misinformation

- Region of Waterloo Public Health continues to provide up-to-date and evidence-based information on our website so that you and your audiences have the information you need to make informed decisions about your health.
