

Kitchener East Side Watermain / Walter Bean Trail Closures

We are making upgrades to the water system. The Region of Waterloo is installing a new watermain to strengthen the existing distribution system and a help service projected growth and development. Construction will be in the area of the Otterbein Road and the Walter Bean Trail to Old Zeller Drive.

To complete the construction of the watermain and keep everyone safe, The Walter Bean Trail (from Ottawa St. to Old Zeller Dr.) will have to be closed during construction. Completion of the project is expected in ~~September 2023~~. [spring 2024](#).

A portion of the Walter Bean Trail will currently be closed for construction and not available for use. Please follow the signage that is provided on the trail. We are working to re-open the trail as soon as possible and will post updates as work progresses.

If you have any questions or concerns about this project, Please contact the Region of Waterloo project Manager, David Brook at (519) 575-4400 Ext.3561 or by email at DBrook@regionofwaterloo.ca and reference number T2022-172,
