

King Street Reconstruction (Regional Road 15)

University Avenue and ION tracks south of Erb Street, City of Waterloo

Class Environmental Assessment Study Information Sheet for Schedule C Project

Study/Project Scope (What & Why):

Improvements to King Street are needed as a result of the age / condition of underground infrastructure, increased demand from high-density residential developments and needs for active transportation. Such improvements include; sewer / watermain replacement, utility work (ductbank installations), traffic lane reconfiguration, road / streetscape improvements, wider sidewalks, separated bike lanes, decorative lighting, urban landscaping and transit shelters / amenities including an enhanced transit shelter and structure located near the King Street and University Avenue intersection. Additionally, urban landscaping and pedestrian plazas are proposed on Wilfrid Laurier University (Laurier) lands located at the intersections of King Street and Bricker Avenue / University Avenue (adjacent to the Athletics Complex) of which, will include new Laurier landmark signs and decorative gateway feature / structures.

Preliminary Cost Estimate (Budget): \$6,610,000.00

Preliminary Schedule

Commencement of 30 day review period:	September 2, 2015
Commencement of Detailed Design:	November 2015
Phase I Construction (ION tracks at Public Square to Bridgeport Road)	2017-2018
Phase II Construction (Bridgeport Road to Central Street)	2019
Phase III: (University Avenue to Central Street)	2021-2022
Substantial Completion of Construction:	Fall 2022
