

Erb Street (Regional Road No. 9) Improvements, Fischer-Hallman Road to Ira Needles Boulevard

Study/Project Scope (What & Why)

Reconstruction, widening and resurfacing of the roadway, including construction of concrete curbs, separated cycling lanes, sidewalks, retaining walls, noise walls and removal and installation of storm sewer, watermain and associated valves, chambers and appurtenances, including:

- Urbanizing and Widening Erb Street to four lanes from Beechwood Drive/Gateview Drive to Erbsville Court;
- Construction and extension of turn lanes on Erb Street at Beechwood Place and at existing signalized intersections;
- Completing the sidewalk on the south side of Erb Street between Gateview Drive and Erbsville Court;
- Constructing separated on-road cycling facilities on both sides of Erb Street from Fischer-Hallman Road to Erbsville Court; and
- Constructing noise walls abutting residential properties along the north side of Erb Street from Beechwood Drive westerly for approximately 170 m, and south side of Erb Street from Gateview Drive westerly for approximately 340 m.
