Dear Property Owner, Tenant or Occupant.

Re: Regional Road No. 85 (Listowel Road) Sanitary Sewer, Watermain and Roadway Improvements, Township of Woolwich

The Region of Waterloo is preparing to commence construction of the Listowel Road sanitary sewer, watermain and roadway improvements from 800 metres east of Three Bridges Road to 60 metres west of Regional Road No. 21 (Arthur Street). The anticipated start date of construction is Monday, May 27, 2019.

The work of this contract includes trench excavation, installation of sanitary sewer, watermain and related structures and connections and restorations as well as roadway widening for an eastbound left turn lane from Listowel Road to Timber Trail Road.

General Information about this Project**Working Hours**

Normal working hours are Monday to Friday from 7:00 a.m. to 7:00 p.m. On rare occasions, weekend or after-hours work may be necessary to minimize service disruptions.

Staging of Construction

The Region's Contract requirements for staging stipulate that Listowel Road will be fully closed to all traffic/ through traffic. I have attached for your information, a copy of a diagram of the location of the road closure and the posted detour route.

Contract Schedule

Construction is tentatively scheduled to commence on May 27, 2019 with completion expected approximately September 6, 2019.

Driveways and Restoration

The contractor may need to encroach onto private property at times during construction in order to restore or tie-in private driveways or boulevards. Driveways and boulevard areas disturbed by the construction will be fully restored to pre-construction conditions or better by the contractor. In order to

ensure that access to all local properties is maintained during construction, driveways will be constructed half at a time if sufficient width is available. If a property has two accesses, work will be limited to one driveway at a time. In locations with only one narrow driveway to the property, it will be necessary to close the driveway for short durations during certain construction activities. In these instances, property owners will be contacted well in advance of any planned driveway closure by the Contractor.

Construction Contact Information

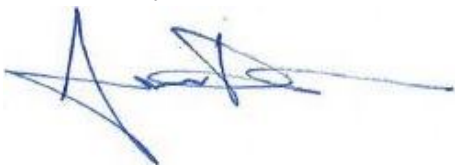

Please contact the following personnel should you have any questions or concerns during construction:

Contact Person	Type of Enquiry	Contact Name	Contact Phone
Network Sewer and Watermain Ltd. On-Site Representative	Road safety, general access, driveways, Construction Inquiries/Concerns (Working Hours)	Enrique Huerta, Project Superintendent	519-223-2270
