Study/Project Scope (What & Why)

Due to the age and condition of the pavement on Fountain Street North, it is necessary to completely reconstruct the existing road structure. The timing of this reconstruction presents an opportunity to address other deficiencies along this road. These deficiencies include a lack of cycling lanes and a lack of continuous sidewalks within the project limits.

The Project Team is considering the following improvements to address the pavement condition and the deficiencies in the cycling and pedestrian facilities within this project: Complete road reconstruction with new concrete curb and asphalt roadway surface, widened to meet the current standards; on-road cycling lanes; Retention of the existing sidewalk on the east side including new sidewalk between Marmel Court and Cherry Blossom Road; Construction of a new sidewalk on the west side between King Street and Cherry Blossom Road; Upgrades to Grand River Transit bus stops; and Storm sewer replacement or repair where necessary.

Preliminary Cost Estimate (Budget):

- phase 1: $1,300,000.00
- phase 2: $3,500,000.00

Preliminary Schedule

- Commencement of Detailed Design: May 2014
- Commencement of Construction: Phase 1: King Street to Hwy 401 2019
- Phase 2: Hwy 401 to Cherry Blossom Road 2021-2022
  (to be completed with Fountain St. N Reconstruction between Maple Grove Rd and Kossuth Rd.)
