

King Street and Sportsworld Drive Reconstruction

Highway 401 to Freeport Bridge and King Street to Sportsworld Crossing Road

City of Kitchener

Class Environmental Assessment Study Information Sheet for Schedule A+ Projects

Study/Project Scope (What & Why)

This project consists of road reconstruction, intersection improvements, storm sewer replacement and the construction of active transportation facilities. The work will make accommodation for the future installation of LRT infrastructure on King Street. Construction is expected to be undertaken in phases over several years starting in 2022.

Preliminary Cost Estimate (Budget): \$8,690,000
