

Trussler Road (Regional Road 70) Improvements

Bleams Road to Yellow Birch Drive, City of Kitchener and Township of Wilmot

Municipal Class Environmental Assessment Study Schedule “C”

Study/Project Scope (What & Why)

The Region of Waterloo is undertaking a Schedule ‘C’ Municipal Class Environmental Assessment (Class EA) for improvements to the Trussler Road corridor from Bleams Road to Yellow Birch Drive in the City of Kitchener and Township of Wilmot.

This study is being completed to identify the preferred solution for upgrading this section of Trussler Road to address the long-term needs for improved traffic operations, underground infrastructure, and new pedestrian and cycling facilities. This study will be completed in accordance with the requirements of the Class EA process, dated October 2000 (amended 2023), and will consider potential social, economic, and environmental impacts, and appropriate measures to prevent or mitigate these impacts.

The Region will be seeking your input throughout the process. Background studies are currently underway to help the Project Team develop potential design alternatives to meet the needs of the corridor. These initial alternatives will be presented at the first Public Consultation Centre.

Preliminary Cost Estimate (Budget): \$ 24.8 Million

Preliminary Project Schedule

Notice of Commencement	Summer 2023
1 st Public Consultation Centre	Spring 2024
2 nd Public Consultation Centre	Fall 2024
