Bleams Road (Regional Road 56), Strasburg Road to Fischer-Hallman Road, Kitchener

Class Environmental Assessment Study
Information Sheet for Schedule B and C Projects

Study/Project Scope (Why and What):

The 2018 Regional Transportation Master Plan (RTMP) update has identified this section of Bleams Road for widening from 2 to 4 lanes due to traffic growth. It also identifies this corridor for active transportation (e.g. pedestrian and cyclist) and transit facilities.

As such, the Regional Municipality of Waterloo has undertaken a Schedule C Class Environmental Assessment (EA) and preliminary design. Detailed design for construction of the improvements on Bleams Road (Regional Road 56) from Strasburg Road to Fischer-Hallman Road in the City of Kitchener will follow.

Preliminary Cost Estimate (Budget): $9,725,000

Preliminary Schedule:
Commencement of Study (EA)  2017
Commencement of Detailed Design  2020
Commencement and Completion of Construction  2021
