

# Victoria Street Multi Use Trail Bruce Street to Centennial Road

## Study/Project Scope (What & Why)

The Region of Waterloo is considering the installation of a Multi Use Trail (MUT) on Victoria Street from Bruce Street to Centennial Road in the City of Kitchener. This project has been initiated to address the need for pedestrian and cycling facilities on Victoria Street from Bruce Street to Centennial Road. The work will include the following:

- The installation of a 2.4 – 3.0 metre wide Multi Use Trail on the north side of Victoria Street from Bruce Street to Forwell Road, and on the south side of Victoria Street from Bruce Street to Centennial Road
- Filling of ditches and the installation of storm sewers in some areas
- Relocation of various utilities, hydro and light poles

This project is classified as a Schedule A+ undertaking in accordance with the Municipal Class Environmental Assessment (EA) planning process. Schedule “A+” projects are defined as routine projects that are considered straight-forward with minor or short term impacts. Such projects are designated as “pre-approved” under the Class EA and may proceed directly to implementation (construction); however, the proponent is required to advise area residents and stakeholders of the project in advance of construction.

**Preliminary Cost Estimate (Budget):** \$3,600,000.00

## Preliminary Schedule

Design Approval	January 2020
Tender	March 2020
Construction	Spring to Fall 2020
