Notice Public Consultation Centre No. 2

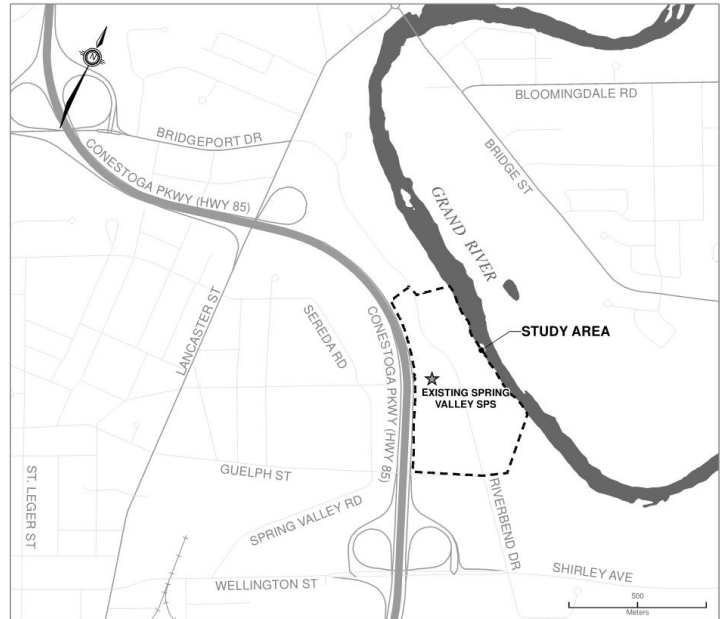

Spring Valley Sewage Pumping Station

Schedule B Class Environmental Assessment

What is this study all about?

The Regional Municipality of Waterloo (Region) is initiating a Municipal Class Environmental Assessment (Class EA) Study for the Spring Valley Sewage Pumping Station (SPS), located at 365 Riverbend Drive in the City of Kitchener. The study has now completed the evaluation process and will **present the preliminary recommendations** for the Spring Valley SPS to:

- Meet future servicing requirements,
- Increase operating flexibility and reliability, and
- Meet current industry standards and best practices.

How is this study being done?

This study is a Schedule 'B' project in accordance with the requirements of the Municipal Class EA process (October 2000, amended in 2007, 2011, and 2015), which is an approved process under the Ontario Environmental Assessment Act.

How can I participate in this study?

Interested parties are invited to attend a virtual public consultation centre

The Region invites residents to a virtual public consultation centre to learn more about the study, including:

- An overview of the potential alternatives identified for the Spring Valley SPS,
- Information on the decision making process and preliminary preferred alternative solution, and
- An opportunity to contact the project team if you have any questions or would like to provide input.

The virtual public consultation centre materials, including the presentation recording, presentation boards, and video transcript, will be posted for 30 days on the Region's website at the link provided below.

Date / Time: January 27 - February 26, 2021
