What is this study all about?

The Region of Waterloo (Region) and local municipalities work together to supply clean and safe drinking water to residents. The Region is completing a Municipal Class Environmental Assessment (EA) Study to identify potential upgrades to improve water supply within the west Cambridge water system (Cambridge 3 pressure zone). The study will:

- Address the community’s long-term water supply needs
- Determine the requirements for a new water tower, including size and location
- Identify how to decommission the existing Inverness Water Tower if necessary (located on Dalkeith Drive)
- Determine if improvements are needed at the St. Andrews pumping station and tank site (located at St. Andrews Drive and Southwood Drive)
- Identify the need and potential location for new watermain upgrades

How is this study being done?

This study is a Schedule ‘B’ project in accordance with the Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011 and 2015), which is an approved process under the Ontario Environmental Assessment Act.

How can I participate in this study?

Residents are invited to attend a public consultation centre
The Region invites residents to a public consultation centre to learn more about the project, including key milestones and next steps.
Notice of Public Consultation Centre No. 1  
West Cambridge Water System Upgrades  
Schedule ‘B’ Class Environmental Assessment

The public consultation centre will be held:

<table>
<thead>
<tr>
<th>Date / Time:</th>
<th>November 30, 2017 – 5:00 p.m. to 7:00 p.m.</th>
</tr>
</thead>
</table>
| Location:   | Cambridge City Hall  
             | 50 Dickson Street  
             | Cambridge, ON N1R 8S1 |

If you are unable to attend, the public consultation material and an online survey will be available on the Region’s website at:

http://www.regionofwaterloo.ca/MasterPlansandProjects

Sign-up for Project Updates
Residents are also invited to participate in the planning process and learn more about the West Cambridge Water System Upgrades Study by:

- Signing up for our e-newsletter that will provide you with updated information about this study (email westcambridge@regionofwaterloo.ca with your contact information to sign up)
- Participating in on-line surveys that ask your opinion about issues relevant to this study

If you would like more information about the West Cambridge Water System Upgrades Study or would like to sign up for the Study’s e-newsletters and on-line surveys, please contact:
