SUBJECT: WATERLOO REGION HOUSING’S 2011/12 GENERAL INSURANCE PROGRAM

RECOMMENDATION:

THAT the Regional Municipality of Waterloo accept the bid of Frank Cowan Company Limited for the 2011/12 General Insurance Program for Waterloo Region Housing in the amount of $314,307.03 inclusive of the SHSC fee of $15,625.47 and all applicable taxes.

SUMMARY: Nil

REPORT:

On June 29, 2011, Council passed a motion objecting to the refusal of the Social Housing Services Corporation (SHSC) to allow for competitive bidding for insurance in 2011/2012. Staff is pleased to report that on August 15, 2011, due to the pressures exerted by all the stakeholders involved, SHSC changed their position on this matter to allow alternative broker arrangements for only those who had this exemption for the previous year. Waterloo Region Housing (WRH) is one of these providers who were granted alternative broker arrangements in 2010/2011 via the SHSC’s formal process, so we are again allowed to follow this same process for the WRH insurance programs in 2011/2012.

The Waterloo Region Housing’s General Insurance Program is outside the Region of Waterloo’s Municipal Insurance Pool’s Program due to the additional coverage requirements set by the Social Housing Service’s Corporation (SHSC). This insurance program renews on November 1, 2011 and coverage is subject to Council’s approval. This program covers the 2,559 units transferred from the Province in 2001 and now owned by the Region. Staff obtained the required bid from the SHSC’s Group Insurance Program administered by AON Reed Stenhouse Inc. and a bid from the Frank Cowan Company Limited, the only other competitor able to meet the SHSC’s insurance program requirements. The quotes are as follows:

Frank Cowan Company Limited (inclusive of the SHSC fee) $314,307.03
AON Reed Stenhouse Inc. (SHSC fee not applicable) $349,075.32

The 2011/12 annual insurance program cost of $314,307.03 is an increase of $21,969.00 or 7.5% over that which was charged in 2010/11. Under legislation, the SHSC charges a 5% administration fee, which is mandatory to LHC’s (Local Housing Corporations), to cover their operational costs for administering their insurance program. The Region’s SHSC fee for 2011/12, which is included in the $314,307.03, is $15,625.47.

CORPORATE STRATEGIC PLAN:

Award of this contract meets Focus Area 5 of the Region’s Corporate Strategic Plan in that we ensure all Regional programs and services are efficient and effective and demonstrate accountability to the public.
FINANCIAL IMPLICATIONS:

Frank Cowan Company Limited                       $298,681.56
SHSC Fee                                             15,625.47
Sub-total                                             $314,307.03
Less: Municipal Rebate of 86.46% of HST on SHSC Fee   (1,554.22)
Total                                                $312,752.81

Total net cost for the 2011/2012 General Insurance Program for Waterloo Region Housing will be $312,752.81. Sufficient funds for this expense are included in the preliminary 2012 base budget.

OTHER DEPARTMENT CONSULTATIONS/CONCURRENCE:

Planning, Housing and Community Services staff have assisted with the documents submitted to market and are in agreement with the recommendation proposed.

REPORT:

Bids were called for the supply of Plow Equipment to be installed on two (2) cab and chassis units that were purchased on June 1, 2011 (CAO Report P11-015). The proposal included an option to purchase additional plow equipment, in the event pre-budget approval was given for 2012 vehicle purchases. On September 14, 2011, Council granted pre-budget approval (Report CR-FM-11-019 dated September 6, 2011) and the Region is purchasing two (2) additional cab and chassis units. Therefore, the Region is exercising the option included in P2011-46 to purchase two (2) additional pieces of plow equipment for 2012 to be installed on the new replacement cab and chassis, for a total purchase of four (4) units of plow equipment.

Proposals were called for the supply of two units (2) of Plow Equipment and were advertised in The Record, on the Region’s website and the OPBA website and were opened in the presence of C. Bogusat, L. Smith and D. Schmidt.

The following proposals were received for two (2) units of plow equipment:

<tr>

<td>$268,558.06</td>
<td>No Bid</td>
</tr>
</tbody>
</table>

While the Region’s standard dump box is aluminum, there is only one supplier that manufactures that type of box eliminating other manufacturers from the bidding process. Therefore in order to retain an open and fair bidding process, a standard steel truck body was specified as part of the proposal with optional pricing for aluminum dump boxes to be supplied.

Both Fleet Maintenance and Transportation Operations staff reviewed the proposals received. Evaluation of the proposals were based on the Region’s standard evaluation criteria and as a result of the evaluation, Viking Cives Ltd. scored the highest in the evaluation and was low bid on the proposal.

Typically the Region receives two to three bids when it advertises for this type of equipment. Recently, Tenco out of Quebec has been less aggressive in marketing its product in this part of
Ontario and Alliston Equipment Ltd. from Ontario has not been bidding on municipal tenders for several years. This leaves only two manufacturers in this area - Viking Cives Ltd. & Larochelle Equipment.

Therefore, staff recommends that Proposal P2011-46 be awarded to Viking Cives Ltd. for the supply of two combination spreader/aluminum dump bodies as specified to be mounted on the equipment purchased as part of the 2011 procurement process and further that the Region of Waterloo exercise its option to purchase two additional combination spreader/aluminum dump bodies as specified to be mounted on the equipment purchased as part of the 2012 vehicle procurement process.

CORPORATE STRATEGIC PLAN:

This recommendation satisfies Focus Area 5, Service Excellence by ensuring Regional programs and services are efficient and effective and demonstrate accountability to the public.

FINANCIAL IMPLICATIONS:

The Transportation Equipment Reserve includes $530,000 for two (2) cab and chassis replacing units 1251 and 1252, complete with winter maintenance equipment in 2011 and a similar amount for the replacement of units 1253 and 1254 in 2012. The cost for the supply of 4 additional combination spreader/aluminum dump bodies as per Region of Waterloo specifications is $537,522.92 including HST and $484,056.99 net of the HST rebate.

The final date of acceptance for this proposal is December 7, 2011.

OTHER DEPARTMENT CONSULTATIONS/CONCURRENCE:

Fleet Maintenance and Transportation Operations staff has reviewed the proposals and concur with the recommendation.

TO: Members of Regional Council

DATE: October 26, 2011

SUBJECT: Well Interference Advisory Committee Appointments

RECOMMENDATION:

That Councillors Les Armstrong, Todd Cowan, Rob Deutschmann, Ross Kelterborn and Jim Wideman be appointed to the Well Interference Advisory Committee for the 2010-2014 term of Regional Council and that the Regional Chair appoint other members as may be required.

BACKGROUND:

During the Inaugural Meeting, appointments were not made to the Well Interference Advisory Committee. These appointments will permit the Committee to meet if required.

Respectfully Submitted,
Ken Seiling, Regional Chair
On September 19, 2011, the Licensing and Retail Committee held a meeting where hearings for taxi drivers were convened under By-law 04-069, the Taxi-Cab Meter By-law. An excerpt of the by-law describing the Region's authority to conduct the hearings is provided:

55. (1) The Regional Municipality of Waterloo, in addition to any other penalty or remedy, may refuse to grant or to renew, or may suspend or revoke a licence under this By-law by reason of the ground that the conduct of the person applying for or holding the licence, or where the person is a corporation, that the conduct of the corporation's officers, directors, employees or agents, affords reasonable cause to believe that the person will not carry on or engage in its business in accordance with the law or with honesty and integrity.

(2) For greater certainty, "law" under subsection (1) of this section includes the laws and regulations of Canada and the Province of Ontario and the by-laws of The Regional Municipality of Waterloo, including this By-law, and any other municipality having lawful jurisdiction.

(3) Before acting under subsection (1) of this section, a hearing shall be held whereupon the Statutory Powers Procedure Act, R.S.O. 1990, c. S. 22, or any successor thereof, with the exception of sections 17, 17.1, 18 and 19, shall apply.

(4) Where reasonably appropriate, and as an alternative or in addition to refusing to grant or renew, or revoke or suspend a licence under this By-law, The Regional Municipality of Waterloo may impose special conditions upon the person as a requirement of being issued or holding a licence.

(5) The authority under this section shall be exercised by the Licensing and Retail Committee."

At the meeting, a hearing was held for Gary Broderick, City Cabs Taxi Driver, License #5461, the details of which are outlined below.
On September 2, 2011, notice was served for a hearing to be held with respect to the taxi driver's license of Gary Broderick at the meeting of the Committee on September 19, 2011. At that hearing, evidence was introduced as to the driver's record of convictions and the previous probation of the driver's taxi license from May 2009 – March 2010.

The recommendation of staff was based on the Committee's guidelines for penalties and mitigating reasons for consideration. Staff recommended a suspension of the taxi driver's license for twenty-one (21) days, to be followed by one (1) year of probation of his taxi license, with conditions attached to ensure the driver's compliance with the Highway Traffic Act. Following consideration of the evidence, it was the decision of the Committee to level a suspension of his taxi driver's license for twenty-one (21) days followed by one (1) year of probation, in accordance with the staff recommendation.

At the hearing, the driver was advised of his right to appeal the decision provided for in the By-law, which states:

55.1 (1) Any person who was the subject of a hearing under section 55 of this By-law may apply to the Clerk within fifteen (15) days of the decision of the Licensing and Retail Committee with a request that Council review the decision in regard to any refusal, revocation, suspension or special condition. An application under this subsection shall set out the relief sought and the grounds for the review.

(2) Upon receipt of an application under subsection (1) of this section, the Clerk shall submit the application and the decision of the Licensing and Retail Committee to Council for a review. The person applying for the review shall be given notice of the Council meeting where the review will occur and shall be permitted to attend as a delegation.

(3) Any decision of the Licensing and Retail Committee in regard to any revocation, suspension or special condition shall be stayed until the review by Council is completed.

(4) After conducting a review under subsection (2) of this section, Council may confirm the decision of the Licensing and Retail Committee, grant the relief sought, in whole or in part, or grant any other relief as it deems appropriate.

A written appeal of the Committee's decision was received from G. Broderick on October 4, 2011, within the period provided by and in accordance with the By-law. The suspension of the taxi license which was to have taken effect on October 17, 2011 but has been stayed until the review of the decision by Council is completed.

On October 13, the driver was notified via telephone and written correspondence that the appeal of the Committee's decision would be heard at the Regional Council meeting of October 26, 2011. As well, the driver was advised that he could register to appear before Council as a delegation with regard to the appeal. The driver had earlier been provided with the excerpt of the Taxi Cab Meter By-law pertaining to licensing hearings and appeal, and a copy of the materials provided in the Council package has been also provided to the driver.

STATUS DEFINITIONS (Applicable for Driver Record Search Only)

LICENSED
Driver's licence is valid.

SUSPENDED
Driver's licence is under suspension for failure to comply with regulations specified in the Highway Traffic Act or Criminal Code of Canada.

UNLICENSED CANCELLED
Licence is no longer valid for any of the following reasons:
- Driver has moved to other jurisdiction
- License fee refunded / not paid
- License returned voluntarily
- Failure to comply with ministry requirements.

UNLICENSED
Driver's licence has expired within the last 12 months. (Driver may renew by paying renewal fee and passing any applicable tests.)

UNLICENSED UNRENEWABLE
Driver's licence has expired for more than 12 months. (Driver must visit Driver Examination Centre and pass any applicable tests.)

NEVER LICENSED
Individual has never held a permanent Ontario driver's licence. The reference number has been created to record convictions / accidents / suspensions, etc.

DEATH REPORT
The ministry has received a report that this driver is deceased. The report has been recorded, but not confirmed.

PENDING LICENCE
An applicant has just applied for an Ontario driver's licence. (A successful written test must be completed before a licence can be issued.)

EXTENDED DRIVER RECORD SEARCH
An extended driver record search includes a history of all Criminal Code convictions, suspensions and reinstatements that are on the driver record. Highway Traffic Act convictions, suspensions and reinstatements in the previous 3 years are also included.

EXPLANATORY NOTES:
Date represents the conviction date for any convictions and effective date for all other entries shown on the Statement of Driving Record.

It is the policy of the ministry to exclude from the public record any defaulted fine suspension which has been cancelled and licence reinstated as a result of payment.

DEFINITION DES STATUS (Pour une recherche dans le dossier du conducteur seulement)

TITULAIRE D'UN PERMIS DE CONDUIRE
Le permis de conduire est valide.

SUSPENDU

PERMIS DE CONDUIRE ANNULÉ
Le permis n'est plus valide pour l'une des raisons suivantes:
- Le conducteur / la conductrice n'habite plus en Ontario
- Les droits du permis ont été remboursés / n'ont pas été payés.
- Le conducteur / la conductrice a rendu volontairement son permis
- Non-respect des exigences du ministère.

PERMIS DE CONDUIRE EXPIRÉ
Le permis de conduire a expiré au cours des 12 derniers mois. (Le conducteur / la conductrice peut le renouveler en payant les droits prévus et en réussissant les examens pertinents.)

ANNULÉ ET NON RENOUVELABLE
Le permis de conduire est expiré depuis plus de 12 mois. (Le conducteur / la conductrice doit se rendre à un centre d'examen de conduite pour subir les examens pertinents.)

N'A JAMAIS EU DE PERMIS
Cette personne n'a jamais eu de permis de conduire permanent de l'Ontario. Le numéro de référence a été créé pour enregistrer les condamnations, accidents, suspensions, etc.

RAPPORT DE DÉCÈS
Le ministère a reçu un rapport l'avisant que le conducteur / la conductrice est décédée(e). Ce rapport a été enregistré, mais non confirmé.

PERMIS DE CONDUIRE EN ATTENTE
La personne vient de faire une demande de permis de conduire de l'Ontario. (Elle doit réussir un examen des connaissances des règles de la circulation avant qu'un permis de conduire ne lui soit délivré.)

RECHERCHE APPROFONDI AU DOSSIER DE CONDUITE
La recherche approfondie au dossier de conduite comprend une liste de toutes les déclarations de culpabilité prononcées en vertu du Code criminel, de toutes les suspensions et de tous les rétablissements y qui sont inscrits, ainsi que les déclarations de culpabilité, suspensions et rétablissements en vertu du Code de la route au cours des trois dernières années.

NOTES EXPLICATIVES
La date fait référence à la date de condamnation et à la date d'entrée en vigueur de toutes les autres entrées figurant sur le relevé du dossier de conduite.

En vertu de sa politique, le ministère n'inscrit pas dans les dossiers auxquels le public a accès les suspensions pour amendes impayées ayant été annulées et les permis remis en vigueur par suite du paiement de l'amende.
meeting. The recommendations being made by staff are based on the past precedents of the Committee and also the mitigating reasons aforementioned.

LICENSING HEARINGS

a) BRODERICK, GARY — City Cabs Taxi Driver, Licence #5461

Evidence — M. Sawdon

M. Sawdon noted that this hearing was adjourned from May 30, 2011 to allow the defendant to attend to a family obligation.

The Committee Clerk swore in the defendant.

M. Sawdon submitted the following evidence:

Exhibit A: Copy of the driver’s taxi-cab driving license.
Exhibit B: Certified copy of owner’s extended driving record from the Ministry of Transportation, Office of the Registrar of Motor Vehicles
Exhibit C: Copy of probation letter to the defendant, dated May 8, 2009

Reply evidence from defendant

G. Broderick noted that he has an outstanding speeding offence that is not included on the submitted driver’s record, and he is meeting with the prosecutor in the near future to seek a reduction of the potential penalty. M. Sawdon indicated that those charges could be included in the current hearing.

G. Broderick provided additional details on the driving offenses, as well as noting that he drives part-time for two nights per week.

M. Sawdon emphasized that one speeding charge occurred within a community safety zone.

Recommendation - M. Sawdon

M. Sawdon recommended that the Licensing and Retail Committee place the taxi driver’s license on suspension for twenty-one (21) days, immediately followed by one (1) year of probation, with monthly abstract checks during that time, and that the defendant shall obey all provisions of the Highway Traffic Act while operating a taxi-cab, and that the driver shall not receive any additional demerit points under the Highway Traffic Act. He noted that the notion of progressive penalties would suggest that suspension of the driver’s taxi license is in order.

G. Broderick clarified for the Committee that the recommended suspension would result in forgoing six days of driving a taxi, and emphasized that the loss of pay for those days would affect his ability to provide for his family. He provided additional details for the Committee to consider regarding the speeding offense occurring in the community safety zone.

Committee discussion and recommendation

The Committee debated the evidence provided from staff and the defendant.

MOVED by L. Armstrong
SECONDED by J. Mitchell

1039008
THAT the Licensing and Retail Committee take the following action with respect to Taxi-cab Driver License #5461, Gary Broderick:

a) Gary Broderick, the license holder, receive a twenty-one (21) day suspension of his taxi-cab driver license, commencing October 17, 2011;
b) following the suspension, the license holder be placed on probation for one (1) year effective November 6, 2011, during which time monthly abstract checks will be conducted;
c) for a one (1) year period following the suspension, the license holder shall obey all provisions of the Highway Traffic Act while operating a taxi-cab;
d) for a one (1) period following the suspension, the license holder shall not to receive any additional demerit points under the Highway Traffic Act; and
e) any additional moving violations or demerit points during this probation period will result in another hearing before the Committee with a recommendation for a suspension or revocation of the Regional taxi-cab driver's license.

CARRIED

b) GREWAL, SIMARDEEP – City Cabs Taxi Driver, Licence #5650

Evidence – M. Sawdon

The Committee Clerk swore in the defendant.

M. Sawdon submitted the following evidence:

Exhibit A: Copy of the driver's taxi-cab driving license.
Exhibit B: Certified copy of owner's extended driving record from the Ministry of Transportation, Office of the Registrar of Motor Vehicles
Exhibit C: Copy of probation letter to the defendant, dated May 31, 2011

Reply evidence from defendant

S. Grewal acknowledged the insurance card violation and observed that the owner of the taxi cab paid the ticket for the violation. He asked the Committee for leniency in making its judgment.

The Committee ascertained that other people were passengers in his cab when the offences occurred. It was clarified that driving without a valid insurance card is considered a moving violation.

S. Grewal related his family circumstances, emphasizing his role as sole income-earner. He related that he will take an advanced defensive driving course, and expressed his desire to become a taxi owner/operator in the future.

Recommendation - M. Sawdon

In view of the nature of the defendant’s charge incurred during probation, M. Sawdon recommended extending the end date of the defendant’s current probation from February 28, 2012 to September 19, 2012. He emphasized that any additional speeding charge in that time would lead to a recommendation to suspend the defendant’s taxi license.

Licensing and Retail Committee Penalty Guidelines for Taxi-cab Drivers – Mitigating Reasons for Consideration

- Did conduct/convictions occur while operating a taxi-cab, limo, etc?
- Nature, number and gravity of offence(s)?
- Moving violations?
- How long have they been licensed? With ROW?
- License file check: any adverse incident, comments, reports, previous hearings?
- Conduct and attitude at hearing?
- Support from brokers, owners, colleagues or others?
- Other?

Examples of why decisions have been recommended to Council from the Committee:

- The number of demerit points present on (insert name) drivers abstract
- (insert name) was previously on probation for his Taxi-cab Drivers License
- There have been convictions for (#) moving violations

TO:  Chair Ken Seiling and Members of Regional Council

DATE:  October 26, 2011  FILE CODE:  L07-20

SUBJECT:  Land Acquisition - 518 Dutton Drive, Waterloo

RECOMMENDATION:

That The Regional Municipality of Waterloo take legal title to the lands described as Part Lot 11 and Part Lot 8 GCT as in all of PIN 22280-0026(LT), and municipally known as 518 Dutton Drive, in the City of Waterloo.

SUMMARY:

Nil.

REPORT:

As part of the development of the Rapid Transit system, a maintenance facility is identified as an integral requirement. This facility is required to maintain, repair and store light rail vehicles as well as house a number of facilities that are required to support the network such as an operations and control centre, general administration office and staff training facilities. The expansion plans for the existing Grand River Transit maintenance and storage facilities can not accommodate the needs of rapid transit and staff identified that a separate location along the rapid transit route alignment is essential.

In August 2007, Regional Council directed staff in closed session to implement a strategic land purchasing initiative for the rapid transit project, including acquisition of property for a maintenance facility. Pursuant to this initiative, staff evaluated a number of candidate sites for a rapid transit maintenance facility using functional and locational criteria. Based on this evaluation, the site at 518 Dutton Drive, Waterloo was viewed as the optimal location for the Rapid Transit Maintenance Facility. This property is approximately 68,000 square metres (16.86 acres) and is located towards the northern limits of the rapid transit corridor, north of Weber Street North and east of the Waterloo Spur railway, as shown on the Site Location Map attached as Appendix “A” to this Report. The subject property was evaluated to be the preferred site for the Rapid Transit Maintenance Facility as it has the following key characteristics:

- Close proximity to light rail tracks without having to cross the existing freight tracks
- The size of the lot, including capacity for future expansions of facilities
- Appropriate buffer distances from adjacent uses as well as berms of rail corridor and Weber Street North grade separation
- Close proximity to Weber Street North access
- Close proximity to Expressway at Northfield Drive and King Street North
- Full municipal services available
In accordance with the strategic land purchasing initiative, a third party agent was utilized for the negotiation of an agreement of purchase and sale for the subject property in order to preserve the anonymity of the Region. The objective of this approach is to avoid potential “price inflation” that might be associated with public knowledge of the Region’s interest in acquiring a property.

The negotiated purchase price of $6,000,000 in the Agreement of Purchase and Sale is supported by an independent appraisal report obtained by the Region just prior to commencement of negotiations in June, 2011.

There were a number of due diligence conditions for the Region’s benefit included in the Agreement of Purchase and Sale and these conditions have been satisfactorily addressed and waived such that the Agreement is now “firm.” On closing of this transaction, scheduled for November 10, 2011, title will be directed to The Regional Municipality of Waterloo in accordance with the trust agreement with the third party agent.

The Environmental Assessment Act permits the purchase of land before approval of an undertaking by the Minister of the Environment in recognition of the need for proponents to take steps to mitigate price escalation and delays associated with land acquisitions for projects. In so doing, careful attention is given to ensuring the integrity of the Environmental Assessment process while carrying out the strategic land acquisition initiative.

Next steps with respect to the Rapid Transit Project and this maintenance facility will include:

- Complete additional studies in support of the Transit Project Assessment for the Rapid Transit Project
- Undertake land surveys and engineering work related the development of the maintenance and storage facility.
- Refine the design for the maintenance and storage facility;
- Maintain the short-term lease (expiring in 2013) of part of the existing building
- Continue nominal building maintenance
- Complete specific studies in preparation for building demolition in 2013
- Prepare the site for construction in 2014; and
- Utilize the property for the staging of rapid transit construction.

CORPORATE STRATEGIC PLAN:

The acquisition of the subject property for a rapid transit maintenance facility is in furtherance of the Strategic Objective to develop infrastructure to meet current and projected needs.

FINANCIAL IMPLICATIONS:

The approved 2011 Regional Capital Budget includes $17,065,000 to be funded by debentures to fund resources and property acquisitions required for the continued implementation of rapid transit project and associated multi-modal facility. The estimated cost to purchase the subject property can be accommodated within this budget.
OTHER DEPARTMENT CONSULTATIONS/CONCURRENCE:

Corporate Resources, Planning, Housing and Community Services, Finance and Transportation and Environmental Services staff participated in the identification, evaluation and purchase processes in connection with the acquisition of the subject property.

SUBJECT: POSTED SPEED LIMIT ON HOMER WATSON BOULEVARD
(REGIONAL ROAD 28) APPROACHING BLOCK LINE ROAD

RECOMMENDATION:

THAT the Regional Municipality of Waterloo amend Traffic and Parking By-Law # 06-072, as amended, to:

a) Remove from Schedule 18, Rates of Speed, 70 km/h Maximum Speed on Homer Watson Boulevard/Fountain Street (Regional Road 28) from Ottawa Street (Regional Road 4) to 100 metres west of Preston Parkway;

b) Add to Schedule 18, Rates of Speed, 70 km/h Maximum Speed on Homer Watson Boulevard/Fountain Street (Regional Road 28) from 400 metres south of Block Line Road to 100 metres west of Preston Parkway;

c) Add to Schedule 18, Rates of Speed, 70 km/h Maximum Speed on Homer Watson Boulevard (Regional Road 28) from Regional Road 4 (Ottawa Street) to 400 metres north of Block Line Road;

SUMMARY:

NIL

REPORT:

At the October 18, 2011 Planning and Works Committee, Committee members approved a motion to reduce the posted maximum rate of speed along Homer Watson Boulevard approaching the Block Line Road roundabout. The following motion was approved by Planning and Works committee members:

“THAT in regards to vehicular safety concerns for the Roundabout located at the intersection of Homer Watson Boulevard and Block Line Road, staff be directed as follows:

a. To change all signs from “yield to pedestrians” to “stop” for pedestrians;

b. To reduce the speed limit to 50 km per hour on Homer Watson Boulevard from Bleams Road to Ottawa Street;

c. Overhead signs should not be installed until Regional Council has reviewed where the pedestrian crossings will be located; and

d. To review additional signage regarding vehicular signaling and no passing in the roundabout.”
In response to Part b of the motion, Transportation Division staff proposes a 50 km/h speed zone from 400 m north of Block Line Road to 400 m south of Block Line Road. Maximum speed-ahead signs advising motorists of the speed zone transition ahead from 70 km/h to 50 km/h will be provided in both northbound and southbound directions approaching Block Line Road. These signs are typically placed 100 m to 250 m in advance of the speed zone transition. Figure 1 illustrates the 50 km/h speed zone limits proposed by staff. A by-law is not required to be passed for 50 km/h speed zones on roadways within a local municipality or within a built-up area, however existing by-laws are required to be amended to facilitate the 50 km/h speed zone.

Figure 1 – 50 km/h Speed Zone

In general it is very difficult to control speed. Speed limit signs do not slow down traffic. Research has shown that most drivers travel at a speed they consider to be comfortable, regardless of posted speed limits. Studies, undertaken “before” and “after” revised speed limits have been posted in the Region of Waterloo, have shown that there are no significant changes in average vehicle speeds following the posting of the signs. Research elsewhere indicates similar results, that changing the speed limit does not change the average speed.

Staff generally recommend that speed limits be set at or about the average speed because this is most likely to produce a uniformly moving traffic stream. Traffic flowing at a uniform speed results in increased safety and fewer collisions. With uniform speed, drivers are less impatient, pass less often, and are less likely to tailgate, which reduces both head-on and rear-end collisions. The posting of an appropriate speed limit also simplifies the work of enforcement officers because most of the traffic is moving at or near the posted speed. With an appropriate speed limit, blatant speeders are easily spotted, safe drivers are not penalized, and police officers are not asked to enforce and defend unrealistic and arbitrary speed limits.

Table 1 summarizes the measured speeds of motorists on Homer Watson Boulevard. Overall average speed on Homer Watson Boulevard between Ottawa Street and Bleams Road is 75 km/h. Global Positioning System travel speed surveys illustrate that motorists begin to decelerate their vehicles approximately 300 m prior to the roundabout and reach an average speed of 50 km/h.
approximately 60 - 100 m in advance of the roundabout in both directions.

Speed surveys conducted on October 18, 2011 show that the average speeds entering the roundabout from Homer Watson Boulevard is 30 km/h and the average speed entering the roundabout from Block Line Road is 29 km/h.

Extending the 50 km/h speed zone 400 m on either side of the roundabout addresses concerns with speed at the roundabout and generally matches with expectations that drivers slow down prior to reaching the roundabout. The remaining sections of Homer Watson Boulevard would continue at 70 km/h which more closely resembles current speeds.

Regional staff has already initiated several collision countermeasures to address collisions at this location including:

- Installing 30 km/h advisory speeds on the approach to this roundabout;
- Installing electronic advisory signs indicating for motorists to stop for pedestrians;
- Improving the position of yield signs;
- Adding educational tabs underneath yield signs;
- Increasing the size of the yield signs on Homer Watson Boulevard;
- Removing unnecessary sign clutter to ease driver information workload;
- Removing lead-in pavement marking dots for southbound Homer Watson Boulevard; and
- Increasing the width of the yield-line to the north and south approaches.

Staff is currently undertaking the following studies:

- Conflict studies to determine where conflicts are occurring; and
- Hiring an independent third party consultant to undertake a pedestrian safety review.

Staff plans to assess the effectiveness of the speed zone change and will report back their findings to Council in a future report.

City of Kitchener staff does not oppose a reduction of speed, but suggests a 60 km/h speed limit should be considered for the entire length of Homer Watson Boulevard.
CORPORATE STRATEGIC PLAN:

Work with Local Municipalities and other stakeholders to develop an integrated and safe network of regional, local and off-road cycling and walking routes (Strategic Object 3.2.1).

FINANCIAL IMPLICATIONS:

The cost to replace maximum rate of speed signs be approximately $400 which is included in the Region’s maintenance budget.

OTHER DEPARTMENT CONSULTATIONS/CONCURRENCE:

The Council and Administrative Services Division will be required to prepare the amending by-law.
