

Time for Health Unit Follow-Up on confirmed Invasive Group A Streptococcal Disease (iGAS) Cases, Waterloo Region, 2011 – 2015

Table 1. Proportion of confirmed Invasive Group A Streptococcal Disease (iGAS) cases where health unit follow-up was initiated on the same day, Waterloo Region, 2011-2015

Year	Per cent
2011	95
2012	100
2013	100
2014	100
2015	100

Definition:

Proportion of confirmed Invasive Group A Streptococcal Disease (iGAS) cases where health unit follow-up was initiated on the same day as receipt of lab confirmation of a positive case.

Limitations and Notes:

Initiation of follow-up includes contact with either the client or a health care provider involved with the case.

Days to follow-up for iGAS cases includes non-business days (e.g., weekends and holidays).
