

Population Projections, Waterloo Region and Ontario, 2021, 2031, and 2041

Figure 1. Projected number of people in the population and projected population growth since 2011, Waterloo Region & Ontario, 2021, 2031 & 2041

Definition:

Projected number of people in the population in a given age group and sex in a given year. Population growth equals the per cent increase in population size relative to the 2011 population estimate.

Limitations:

It should be noted that the population projections are demographic, founded on assumptions about births, deaths and migration over the projection period. Assumptions are based on the analysis of the long-term and the most recent trends of these components, as well as expectations of future direction. Since population projections are based on assumptions and are predictive in nature, they should be used for general reference purposes, and not as exact population estimates.

These population projections may differ from others used by the Region of Waterloo for planning purposes, due to differences in how the projections are calculated.

Table 1. Projected number of people in the population, by age and sex, Waterloo Region, 2021, 2031 & 2041

Age Group	2021			2031			2041		
	Females	Males	Total	Females	Males	Total	Females	Males	Total
0-4	16,071	16,915	32,986	16,862	17,753	34,615	17,072	17,974	35,046
5-9	15,674	16,446	32,120	17,328	18,240	35,568	17,496	18,426	35,922
