Welcome

Good morning everyone, and welcome to this week’s community update. This week, I am happy to welcome back family physician Dr. Sharon Bal who is with the Cambridge North Dumfries Ontario Health Team. Dr. Bal will talk about how primary care is helping the community to manage the Omicron wave.

Primary care providers have played a vital role in keeping the community safe.

Doctors around the region have changed the way they work in order to keep patients and their staff safe. This includes the regular procedures and interventions they take to safeguard our health, as well as work to combat COVID-19, including vaccinations.

It has been an all-hands-on-deck effort to manage COVID-19 and Omicron.

While the Province eases public health measures on Monday for certain settings, please continue to remain diligent. We all have a part to play in helping to keep our community’s reopening safe for everyone.

There are no enforcement actions to report since the last update.

I will now pass it to our Medical Officer of Health Dr. Wang.

Update from Dr. Wang.

Thank you, Dr. Wang.
Director of Regional Vaccine Services, Vickie Murray, will now speak to the vaccine roll-out. Morning Vickie.

**Update from Vickie Murray.**

Thank you, Vickie.

We will now hear from this week’s guest, Doctor Sharon Bal. Hello Dr. Bal.

**Update from Dr. Bal.**

Thank you Dr. Bal. We will now open it up to questions from media.

**Media Q&A**
