

Construction notice:

Fischer-Hallman / Bearinger Road

City of Waterloo

Stage 1, July – December 2024

Notice date: June 17, 2024

About the project

The Region is completing improvements on Fischer-Hallman / Bearinger Road between Columbia Street West and Westmount Road North in the City of Waterloo in 2024. Improvements include new asphalt multi-use paths along both sides of the street, transit facilities, street lighting, stormwater/drainage improvements, and road widening.

Timing — Stage 1, July 2, 2024

This work will be completed in two stages beginning with Fischer-Hallman Road on July 2, 2024, and Bearinger Road in May 2025. Surface paving is planned in July or August 2026.

Closures

Fischer-Hallman Road will be closed to northbound traffic between Gatestone Boulevard and Laurelwood Drive in July and August 2024. Local access to residential properties and businesses and access to emergency vehicles will be maintained. Two-way traffic will be restored on Fischer-Hallman Road in September 2024.

Bearinger Road between Laurelwood Drive and Westmount Road North will be closed to traffic between May and December 2025. No local access to residential properties and businesses will be impacted during this closure.

Detour

The detour route for both stages will direct traffic to Columbia Street, Westmount Road, and Laurelwood Drive.

Emergency Services (Police, Fire, Paramedics) will be notified of these road closures and detours to minimize disruptions to services.

Pedestrian access

Existing pedestrian access will be maintained on Fischer-Hallman Road. Pedestrians should follow the signs as they walk through the site.

Property and business access

All businesses in the construction area remain open and accessible during construction. Every effort will be made to maintain access to residential and business driveways in the construction area during working hours (7 a.m.–7 p.m.). Construction activities may temporarily impact access to entrances. We will provide notice of any interruption in advance as much as possible.

Please plan for some delays and travel carefully in the construction zone. Please follow and obey the construction signs when you drive or walk through the construction area, for your safety and the safety of the workers.
