**Re: Proposed Roundabout at Fischer Hallman Rd. (Regional Road 58) and New Dundee Rd. (Regional Rd. 12), Township of North Dumfries and City of Kitchener**

Dear: Resident/Tenant or Business Owner,

In a continued effort to enhance service and safety on the Regional road network, a preliminary design study has been initiated for a potential roundabout at the intersection of Fischer Hallman rd. and New Dundee Rd. The work completed to date has enabled Regional staff to identify a preliminary layout and land impacts in connection with this potential roundabout.

We would be pleased to arrange a meeting with you to discuss this preliminary design and identified land impacts at your property. Please contact Steve Yonemitsu, the Region's Design and Construction Engineer at your earliest convenience.

Prior to making a final recommendation to Regional Council, Regional staff are also inviting the public to provide input on the proposed roundabout at this location. You can provide feedback online From March 9, 2022 until April 8, 2022, by following the link below:
