2.0 Detailed Site Location

AiHc-558 is located on a relatively flat meadow adjacent to an agricultural field. The site is bounded by a ditch and the Fischer-Hallman Road to the east, and an agricultural field to the west. The offsite datum for the site is set to a nearby hydro pole, with the coordinates being: 17T 4802689 metres north 541585 metres east.

A Trimble Catalyst GNSS was used to take the following UTM coordinates, set to UTM grid zone 17T and NAD 83 datum. No method of correction was utilised. All UTM coordinates were recovered with an error of plus or minus 30 centimetres.

The following five GPS coordinates were recorded for AjGw-645.

- Northern site extent: 541558 east, 4802755 north, elevation 354 metres
- Eastern site extent: 541566 east, 4802741 north
- Southern site extent: 541570 east, 4802725 north
- Western site extent: 541562 east, 4802734 north
- Site centre: 541563 east, 4802740 north
